CANADIAN INSTITUTE OF FOOD TECHNOLOGY

JOURNAL

DE L'INSTITUT CANADIEN DE TECHNOLOGIE ALIMENTAIRE

Volume 4
1971

folate activity
in baby foods, 51
fruits
anaerobic digestion of pear waste, 159
fermentation du jus de pomme, 80
les volatiles dans les jus de pomme, 112
nitrate content, 6
organic acids and sugars in Saskatoon berries, 29
processing of cranberries, 104
storage study, 146
gravy
bacterial content, 130
hemagglutination
detection of rennin, 16
international development
A21
light
effect on frozen beef, 166
fluorescent, autoxidation of oil, 24
meat
fat content measurement, 154
rigor mortis development, 139
Staphylococci in, 137
microbiological analysis
biometer, 187
milk
composition, 9
influence de la congélation, 55
synthetic and filled, 175
triglyceride composition of fat, 61
moisture
storage loss in vegetables, 143
nitrates
in vegetables and fruits, 6
nitrites
sodium, inhibition of *Clostridium botulinum,* 179
nutrition
A48, 120
oil
analysis techniques, A44
corn, autoxidation, 24
organic acids
in Saskatoon berries, 29
polarographic assay, 13
polarography
organic acid assay, 13
potato chips
color chart, 136
poultry
sensory characteristics, 116
turkey quality, 75
processing
quality, of cranberries, 104
thermal, mass average value, 133
thermal, parameter for evaluation, 58 + 138
protein
preparation of concentrates, 85
quality
bacterial, dessert toppings, 185
of cranberries, 104
of turkey, 75
research
A53, A74
rigor mortis
method for tracing development, 139
sensory characteristics
of poultry, 116
Staphylococcus
isolated from meats, 137
storage
moisture loss, 143
of vegetables, 19
study, 146
sugars
in Saskatoon berries, 29
temperature
effect on frozen beef, 166
texture
Ottawa system, 91 + 189
triglycerides
in milk fat, 61
separation and analysis, review, 38
vegetables
moisture loss during storage, 143
nitrate content, 6
storage, 19
storage study, 146
volatiles
80, 112

SUBJECT INDEX

additives
in the internal environment, 45
A69
antioxidants
in fat stabilization, 68
autoxidation
of corn oil, 24
of methyl docosahexaenoate, 135
baby food
folate activity in, 51
bacteria
in dessert toppings, 185
in gravy, 130
beef
frozen, color and flavor, 166
radiation pasteurized, color, 1
biometer
microbiological analysis, 187
cheese
cottage, coliforms in, 107
enzyme assisted, 31
rennin detection in, 16
Clostridium botulinum
inhibition, 179
coliforms
in cottage cheese, 107
color
chart for potato chips, 136
in frozen beef, 166
in radiation pasteurized beef, 1
composition
of milk, 9
dairy industry
A67
dessert toppings
bacterial quality, 185
eggs
albumen, 125
environment
and food, A50
internal, additives, 45
northern food, A24
enzymes
in cheese manufacture, 31
rennin detection, 16
fat
measurement in meat, 154
stabilization of, 68
fatty acids
in mackerel, 169
nutritional effects, 120
fermentation
volatiles, 80
fish
farming, A72
mackerel, lipids and fatty acids, 169
flavor
in frozen beef, 166
